

PRODUCT INFORMATION

CADA OIL GOLDEN SCOOTER 2T

Synthetic 2-stroke oil for small air and water cooled 2-stroke engines

Golden Scooter 2T is a high quality synthetic 2-stroke oil for the lubrication of air and water cooled 2-stroke engines (up to 50 cc) of mopeds and scooters, with or without an injection system.

Golden Scooter 2T has been tested extensively and is formulated with carefully selected base oils and special additives. It provides an optimum lubrication, also at high temperatures and heavy duty operating conditions.

Golden Scooter 2T can easily be mixed with petrol (lead free or super) to a homogeneous "pre-mix". It prevents deposits on spark plugs, pistons, inlet and exhaust ports, sticking piston rings and pre-ignition.

Golden Scooter 2T prevents from wear and corrosion of all vital engine parts and it reduces exhaust outlet smoke. Due to the low sulphated ash contents, the risk of a burned out piston because of pre-ignition or detonation, is very low.

Mixing ratio: 1:50 (if not otherwise prescribed)

PERFORMANCE

API TC
